WHAT IS KOMEKAMI-G

KOMEKAMI-G is inspired by an old Japanese saying: “Within every grain of rice, seven gods reside.”

At the heart of the story are the Komekami Girls—seven sisters, daughters of the rice gods. Based at a historic shrine in Usa City, Oita Prefecture, they set out across Kyushu to discover its rich food culture, taking on cooking battles and unique adventures that shape their growth.

Through this project, we bring the story to life with NFTs, games, and live events, creating a vibrant ecosystem where fans engage directly via the KMKM token.

The KMKM token is more than just digital currency—it’s a community token with real utility, enabling content purchases, event participation, staking rewards, and even voting power.
